Abbeycliffe Care Home

REPORT

Review submitted from a **Postal Card** by **Judith E** (Daughter of Resident) on Wednesday 30 May 2018. Relates to May 2018.

12 months ago, my independent, beautiful 96-year young Mum was diagnosed with mixed dementia. I was filled with dread. What happens now? For Mum's safety, residential care became the only option. Abbeycliffe Care Home was suggested, I can honestly say our life-line. No matter how busy, many questions on dementia and Mum's care have always been answered and assurance given. The management and staff are truly committed to care for their residents. Due to the level of support, Mum has blossomed and is more like herself. Nothing is too much trouble for the staff and there is always someone there if needed. Mum has a new home where myself and family are welcome.

My husband has been a resident there for some time. He is very well cared for in every aspect of his life. All the care staff are excellent I go every day so if there was anything untoward or to complain about I would see this. The staff are like family and you do feel part of the Abbeycliffe family. His room is tastefully decorated with co-ordinating curtains and bed linen. He has a spacious on suite.

The staff paint the ladies nails every week if they require them to do so. There is Bingo every week with support from the staff. Occasional singers and outings.

There is an open door policy to speak to the Owner and the manager who will always sort out any query you may have.

There is always a daily menu from the excellent cook who will accommodate all diets and I have been invited to eat with my husband. And always a good cup of coffee awaits you from the cook.

A Hairdresser is available and there is a small salon.

From my initial viewing of the home to settling my mother in and the continuous ongoing care provided at Abbeycliffe Care Home, it has been professional and caring approach at all times. Nothing is ever too much trouble. The manager has kept me informed about any issues concerns in relation to my mother's health. During the first two weeks, appointments had been made for new hearing aids, teeth and glasses and the GP had visited.

Mum is settled and I don't know what I would have done without the staff at Abbeycliffe Care Home. Thank you.

I always worried about my mum going into a residential home as you hear such horror stories.

But since she has moved into Abbeycliffe Care Home my mum has blossomed. I have got my mum back the mum I haven't seen for quite a few years!! She is now so happy and relaxed and her wicked sense of humour has reappeared. Mum and I can't praise the staff highly enough they are so kind and caring and the meals are lovely so much so that mum has regained her appetite and actually put on weight. Abbeycliffe is the best decision we ever made.

The staff and management are wonderful. Dad's health has remained very stable while here.

They always keep us updated, always take time to talk if we would or need to.

It was given us great peace of mind.

Always willing to help and listen.

My mum was in Abbeycliffe Care Home from February 2014 - October 2017. She was cared for very well by all the staff and I had no complaints in the three and a half years she was there. I had peace of mind from the day she went in until the end.

All her needs were met. The staff were extremely friendly and was made to feel very welcome. I would like to say also the last few days she was poorly before she died and the staff looked after her excellently and were very caring to her and ourselves. I would not hesitate to recommend Abbeycliffe Care Home.

The love, care and compassion my wife received during her stay at Abbeycliffe was outstanding. Every single member of staff made it clear how much they thought about her and many went out of their way, often staying beyond shift times, to look after her. I could not in anyway find fault in the way she was treated throughout her stay. In particular, her end of life care was wonderful. She slipped away peacefully and trouble-free largely due to the constant attention from Abbeycliffe staff. I feel blessed that I chose Abbeycliffe for her care.

My Mum has vascular dementia and has been part of the Abbeycliffe family since 2014 and quite frankly I cannot say enough good things about this wonderful care home. Abbeycliffe is the perfect example of how a care home should be run. Extremely professional and competent with the right balance of compassion, respect and heart and this applies to every single member of the Abbeycliffe team. My Mum is now receiving the most amazing end of life care for which I am beyond grateful.

Overall, it's a caring place for mum to be, the staff are very nice and do a great job. There are one or two staff members that on my observations are not as attentive to the residents, however, mum has been happy. Just little things like laundry mixed up or glasses going missing, but overall, it's been and is a lovely place for mum to be.

Our mother has only been here for a few weeks but already we are feeling part of a new family/community. The staff are very welcoming even though they are busy looking after residents. The residence is kept clean and tidy and is a pleasure to visit. Mum says the food is nice and loves the coffee. She also says the staff are very kind and patient and nothing is too much trouble for them even though they are always busy. A safe place for our mum to stay.

I have been very pleased with the treatment and much-improved quality of life that my Mother has received in her four years of residency at Abbeycliffe Care Home Radcliffe.

Not only has the necessary residency of my Mother been a godsend for her it has given me and all of her family true peace of mind and happiness instead of what I am confident would have been depression for all.

I have been attending on my friend for the past three years on a weekly basis. When she was admitted as resident she was unsure and medically in disarray. From day one, improvement was seen from the care and attention given by the home. The premises are spotlessly clean, there is always ample time given to the residents so as to reassure them that all will be well. The food given is acceptable and adequate, it is regular morning, noon and night (evening meal). The staff are very friendly and try, where possible to create activities to help the days pass. I have assisted in the past in fundraising which is used to provide outings for those able to go on them.

Residents often seem bored and sit all day with little interaction between meals. Mums clothes are often mixed with others. Excellent managers and staff, modern facilities and clean rooms. Staff seem to really care - more than a job to some.
